

Kilbourn Elementary School The Golden Eagles Club

10/30/2013

To the Parent/Guardian of _____

Kilbourn School offers social skills groups for students who may need additional support managing their behavior. These groups focus on teaching skills related to emotion management and classroom survival. Students in the emotion management group learn to identify feelings, calm down, and make positive choices. Students in the classroom survival group learn skills such as listening, following directions, trying when it's hard, and waiting for your turn.

Your child has been selected to participate in the _____ group.

The group will meet for 9 sessions on _____, starting on _____. Students will **NOT** be pulled during core academic instruction, such as reading, writing, or math.

Although this group will teach the social skills, the children will not use these skills unless they are practiced and used throughout the day. Please talk with your child about what they have learned and have them demonstrate these skills. Praise them when you notice improvements and remind them to make better choices when there are set backs. We will do the same in school and by working together we hope to make positive improvements in their behavior.

If you would like to speak to a staff member about this group or if you do **NOT** want your child to be a member of the group, please contact _____ at _____.

Thank you for your support!
