TEACHER EXPLAINS TASK

We are going to read regular words accurately and quickly.

TEACHER MODELS TASK

Listen and watch.
Regular words are words that follow usual letter-sound patterns.

Display the Regular Word List on chart paper.
I am going to read this list of regular words accurately and quickly.
I will time myself for one minute using the timer.
If I get stuck on a word, I will cross out that word with my pencil and keep reading. After one minute, I will stop reading.
Start the timer. Read the words aloud from left to right at a steady pace. Misread or segment one or two words and cross them out with the pencil.
One minute is over. I stop reading and circle the last word I read.
Now, I count the words I read accurately until I get to the circle where I stopped. I do not count the words that I crossed out.

Count the words aloud.
I read _____ words accurately in one minute.

Display the Words-per-Minute Record.
Now, I write the number of words I read accurately on the Words-per-Minute Record next to, “First Try”. I read _____ words in one minute.

TEACHER & STUDENTS PRACTICE TASK TOGETHER

Distribute Regular Word List and pencil to each student.
We are going to read these words together accurately and quickly.
I will time us for one minute using the timer.
If anyone gets stuck on a word, we will cross out that word with our pencil and keep reading. After one minute, we will stop reading.
Ready. Begin.
Start the timer. Read the words aloud from left to right at a steady pace. Confirm that all students are choral reading the words. To support reading in unison, it may be helpful to tap the table or the words on the chart paper while the students read aloud.

Misread or segment one or two words and cross them out with the pencil. Do the same for any student errors. Confirm that students cross out misread words.

After one minute:
Stop.
We read for one minute. Let’s circle the last word we read.
Distribute the Words-per-Minute Record.
**TEACHER & STUDENTS PRACTICE TASK TOGETHER (continued)**

Now, let’s count the words we read accurately until we get to the circle where we stopped. Do not count the words that we crossed out.
