We are the Originators and Manufacturers of SHRINKY DINKS shrinkable plastics.

The very first SHRINKY DINKS were sold on October 17, 1973 at Brookfield Square Shopping Mall in Brookfield Wisconsin. Since that time there have been over 250 different Toy Activity and Craft Kits created and marketed.

SHRINKY DINKS SHRINK to approximately 1/3rd their original size and actually become 9 times thicker. Simply place the SHRINKY DINKS piece you created into a Home Oven or Toaster Oven for 2 magic minutes. Watch as your creation gets smaller and smaller. It’s "MAGICAL" and it’s so quick and easy to do!

Click on the SHRINKY DINKS VIDEO above to hear and see what SHRINKY DINKS are all about.

People from all over the world, ages 4 to 90 years are creating items from our line of SHRINKY DINKS shrinkable plastic sheets: Bright White, Crystal Clear, Brown, Black and our most popular, Frosted Ruff N' Ready...this is the plastic that has been machine roughened to accept any Colored Pencil.

Our newest addition to our creative line of shrinkable plastic is SHRINKY DINKS for Ink Jet Printers. We apply a patented coating to our Bright White shrinkable plastic sheets. This coating allows you to print any image from your computer or digital camera onto the plastic sheet. Photographs are really exciting but the possibilities are endless!!

ORDER TODAY...we will ship YOUR order out within TWO business days and we guarantee everything we sell.

Shrinkingly Yours,

Betty Morris
Originator of SHRINKY DINKS
President, Optimist & Determined to encourage CREATIVITY!

PS: We welcome inquiries, suggestions and ideas from ANYONE!
