Short Term Disability insurance can replace part of your income if a disability keeps you from working for a short time. It pays you directly to help cover expenses during recovery, like housing, food and child care.

Long Term Disability insurance can help pay the bills if you become disabled and can't work for an extended period. That could be a few months or several years. This coverage helps replace part of your paycheck. That can help you protect your lifestyle and savings.

Additional Life insurance can protect the people you care about if you're no longer here to provide for them. They can use the payout to help pay expenses like funeral and medical costs, or housing, college tuition and child care.
