

# Strategic Planning: Students

These dashboards show the results from MPS students who participated in the district's 2023 – 2028 Strategic Plan by taking a survey in early 2023.

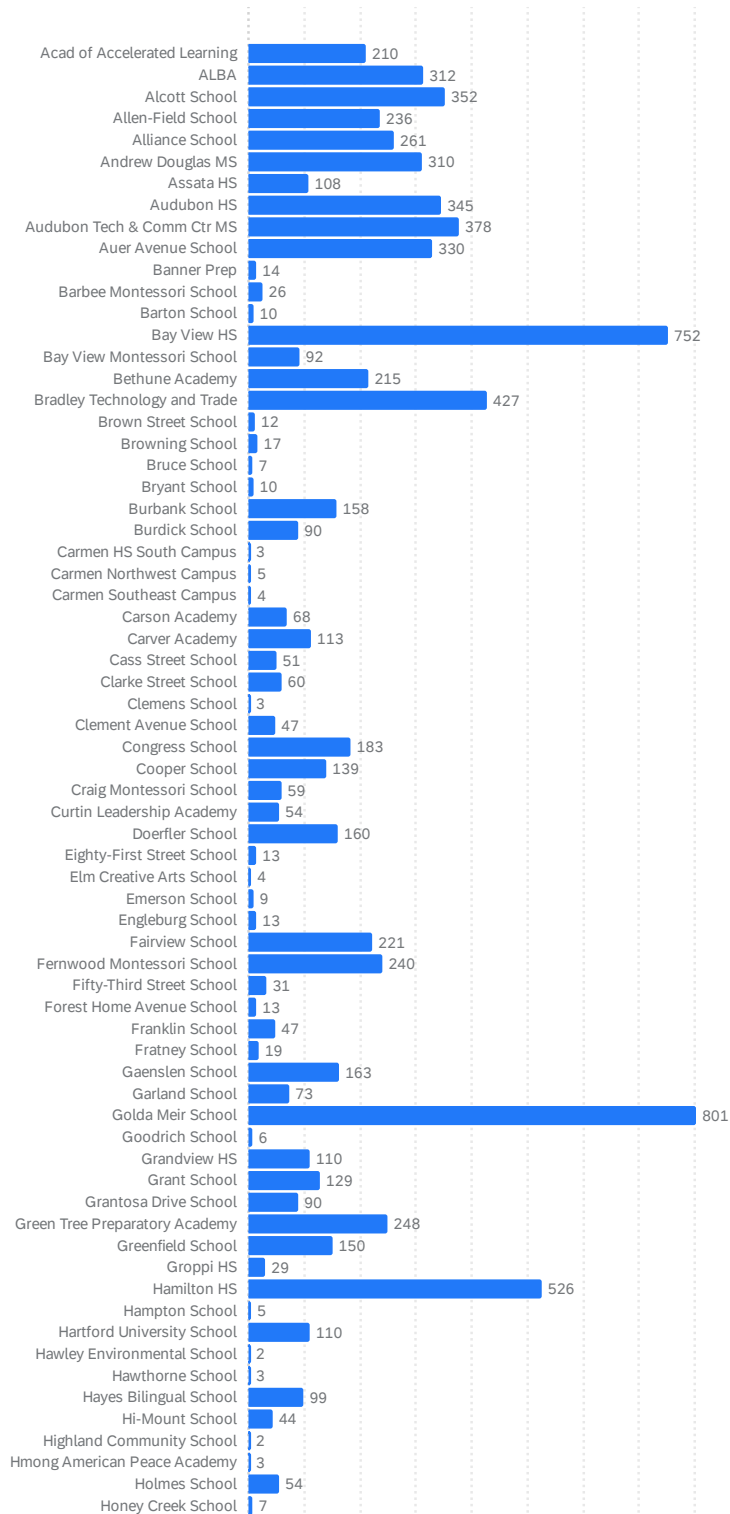

The district is utilizing this input to help inform our planning for the 2023–24 school year and beyond. Our goal is to continually develop ways to best meet the needs of our students, staff, families, and community and to prepare every child for success in college, career, and citizenship. We are embarking on strategic planning that will impact approximately 70,000 students in 156 schools across the city.

Thank you to all who participated in this process!

## School Sites Represented

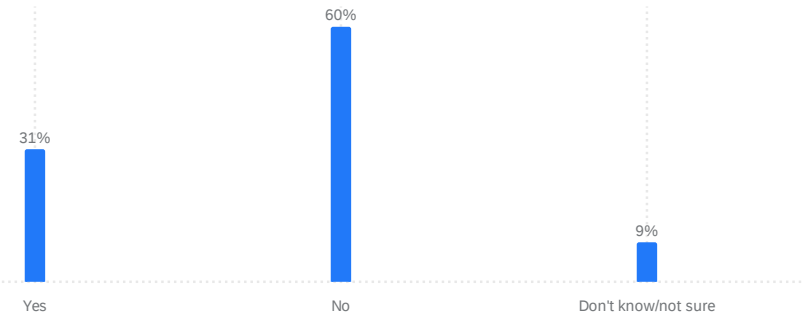

## What is your current grade level?

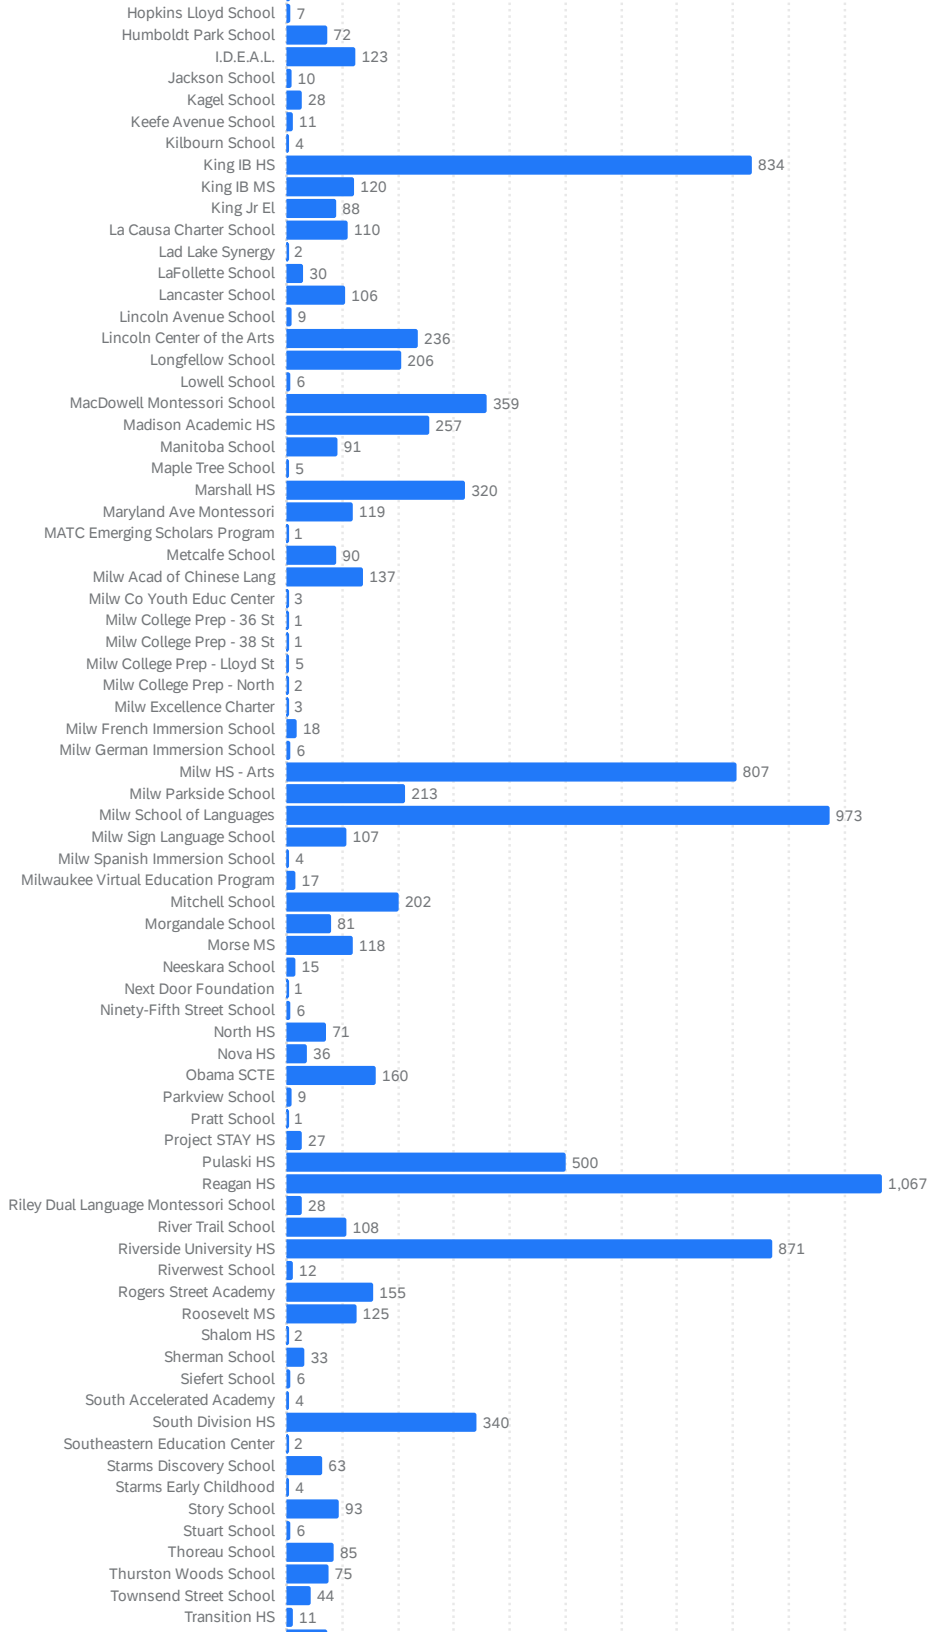

## What is your gender?

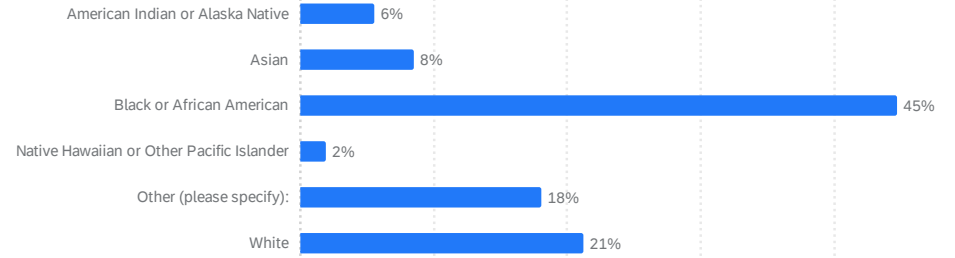

## Are you Hispanic/Latino(a)?

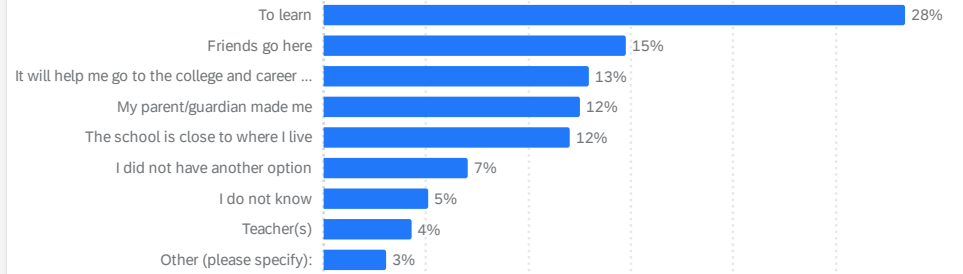

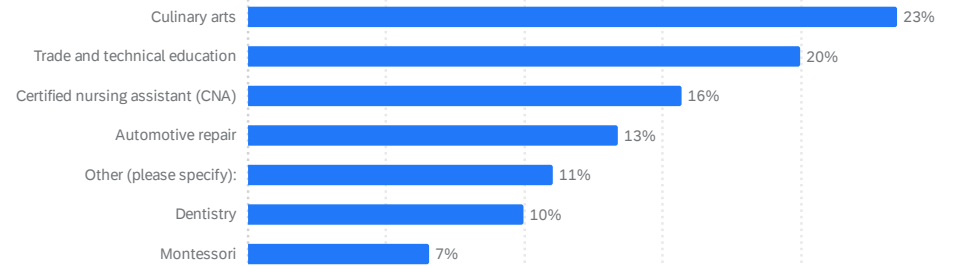

### What is your race? (Select all that apply.)

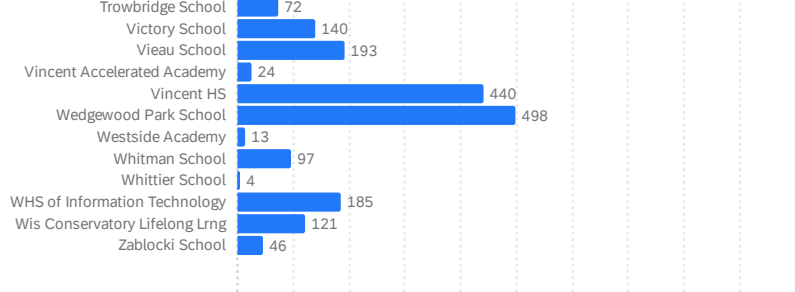

### Why do you go to this school?

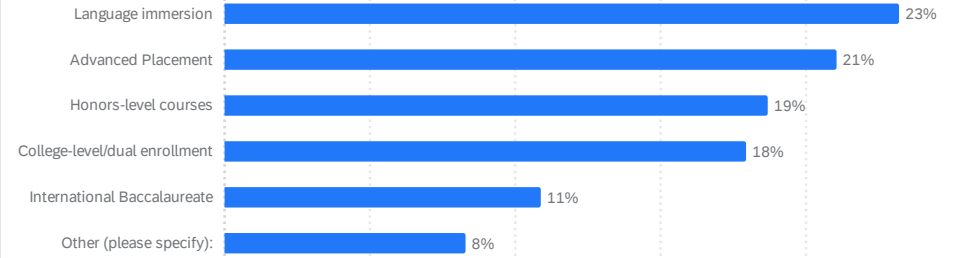

### What academic programming does your school need?

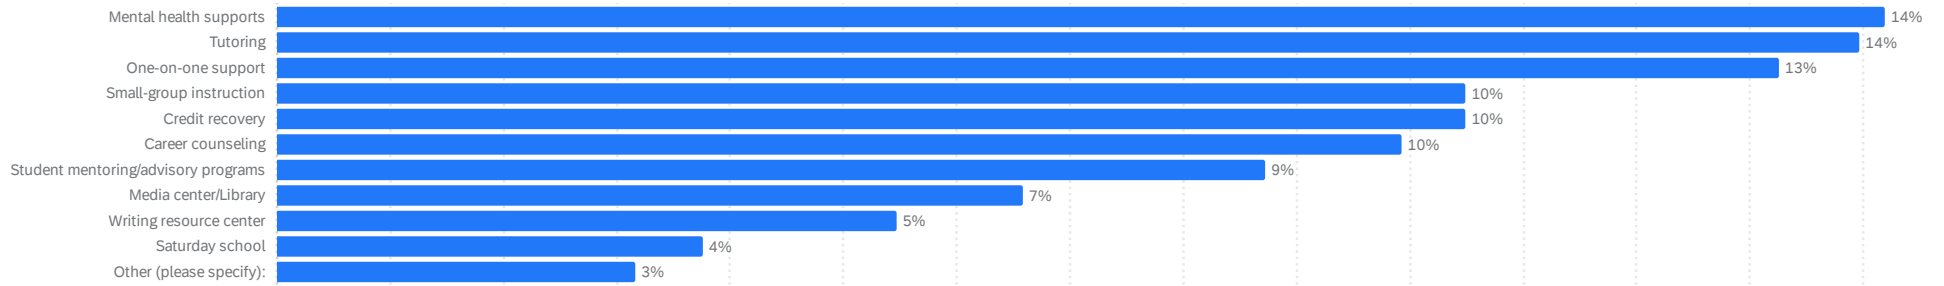

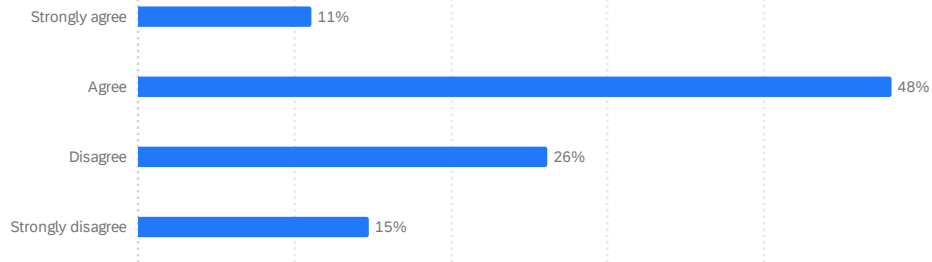

### What advanced academic programming does your school need?

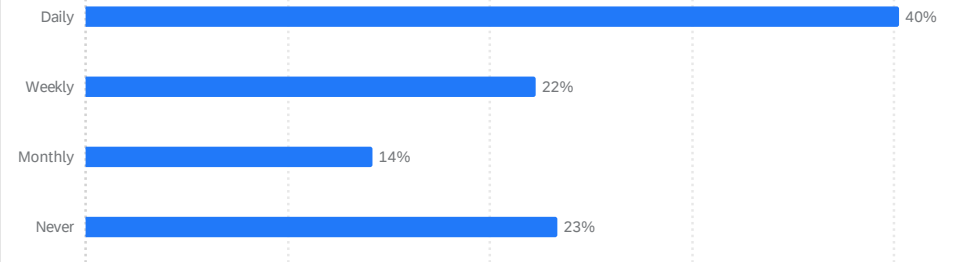

### What supports are needed for increased academic achievement at your school?

### To what extent do you agree? My school provides sufficient mental health support to meet my needs.

### How often is mental health support available at your school?

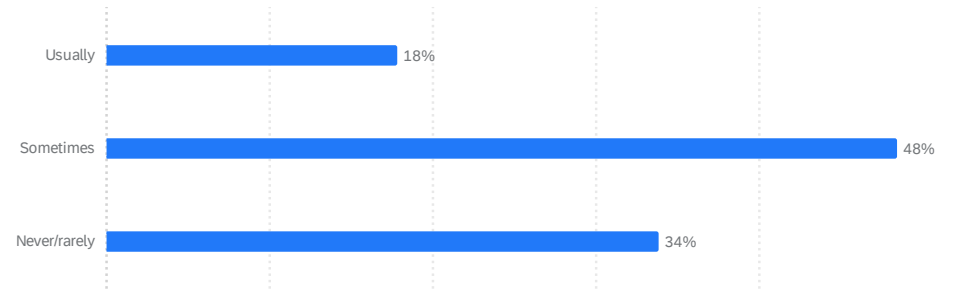

## Lunches

### How often does your school lunch look like something you want to eat?

### How often is the food in your school lunch fresh?

### How often do you enjoy your school lunch?

### How often do you like how your school lunch tastes?

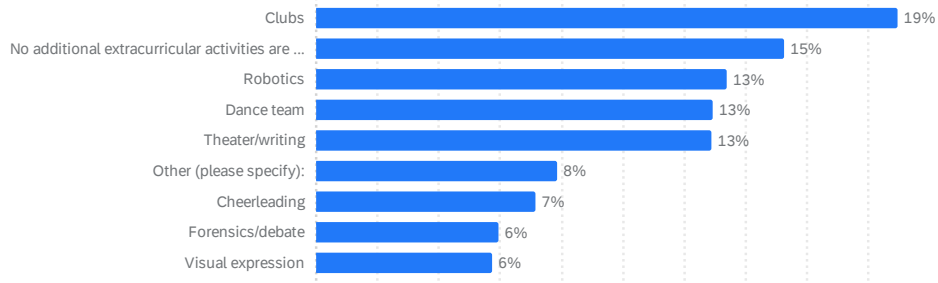

### What suggestions do you have for improving your school lunch?

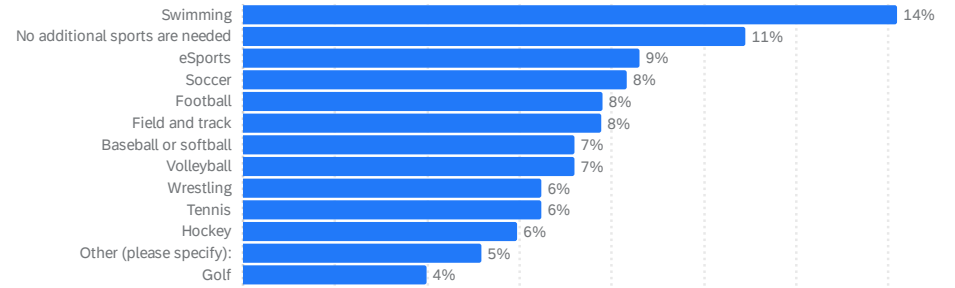

These open responses are being analyzed for language and personally identifiable information.

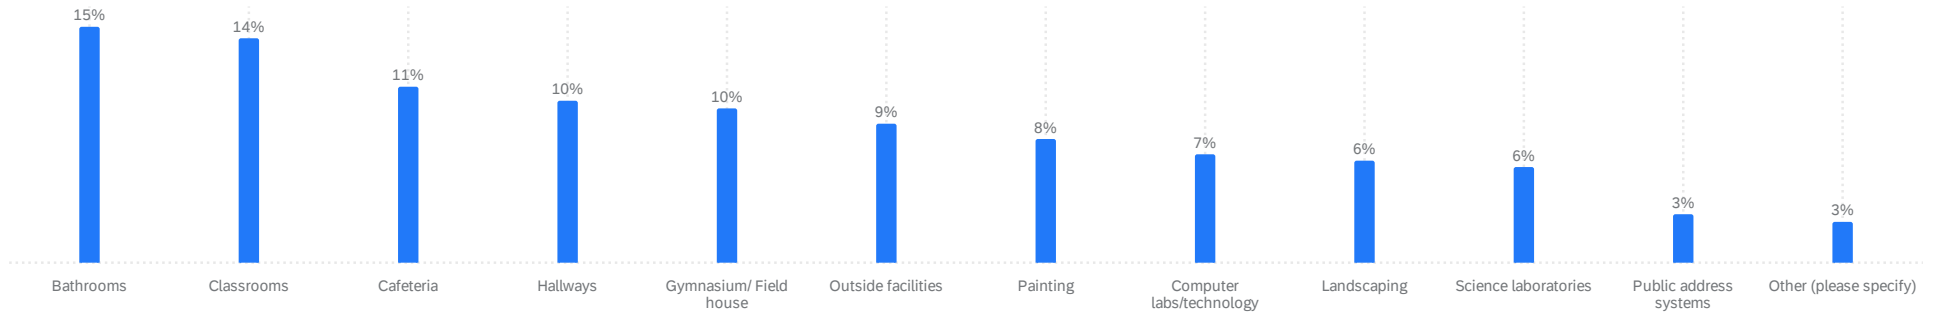

What extracurricular programming do you wish you had at your school? (Select all that apply.)

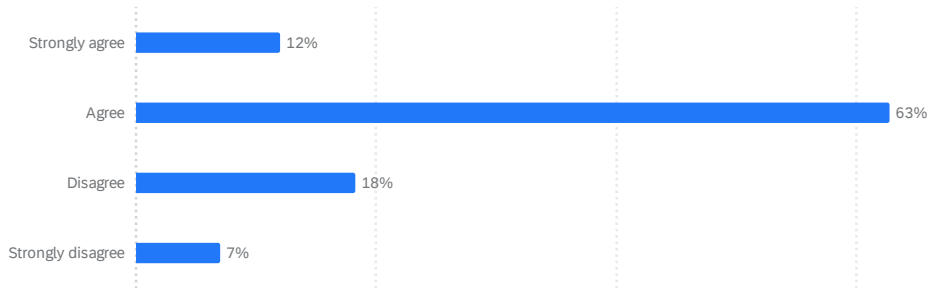

What sports programming do you wish you had at your school? (Select all that apply.)

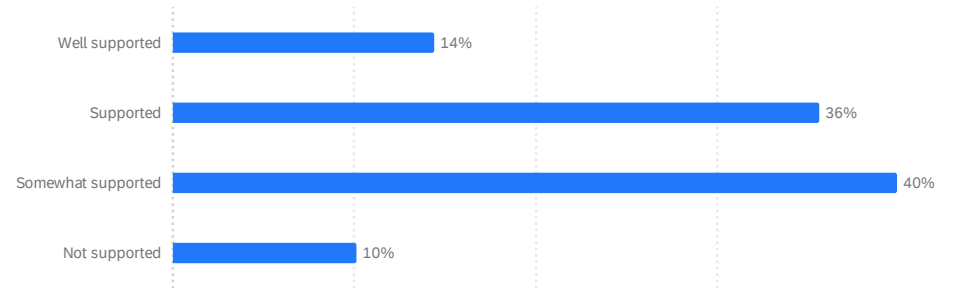

What facilities upgrades would make your school a better place to learn?

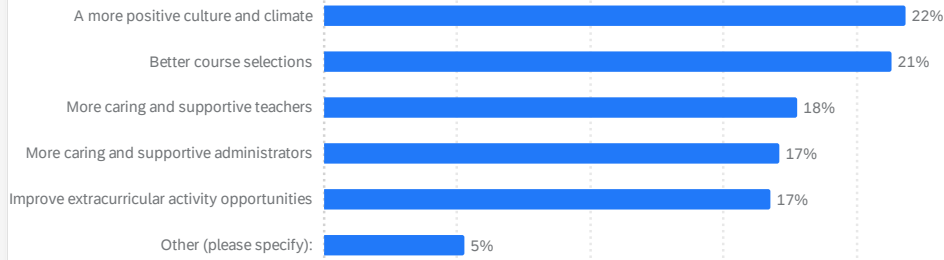

To what extent do you agree? My school's classroom environment allows me to learn.

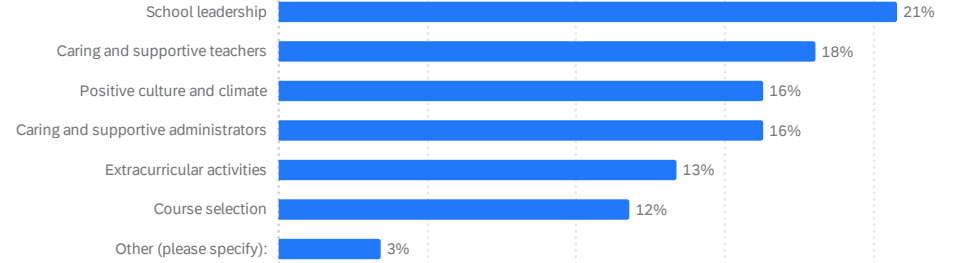

How well do you feel you are supported at your school in realizing your goals and dreams?

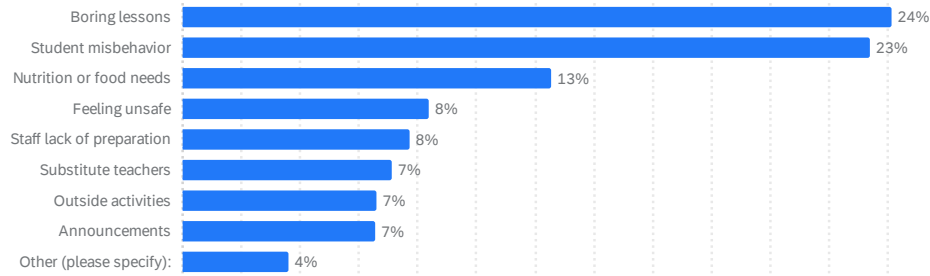

What would help improve your school's learning environment? (Select all that apply.)

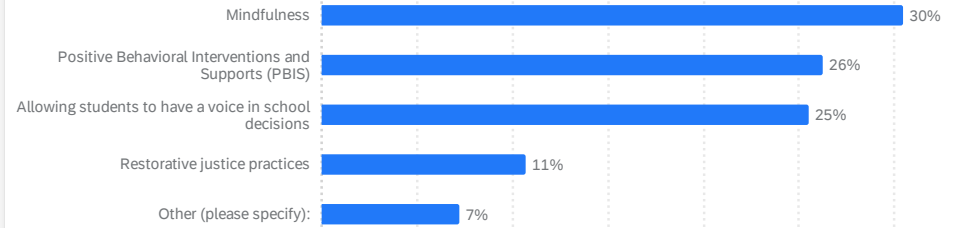

Which of the following contribute to a positive learning environment at your school?

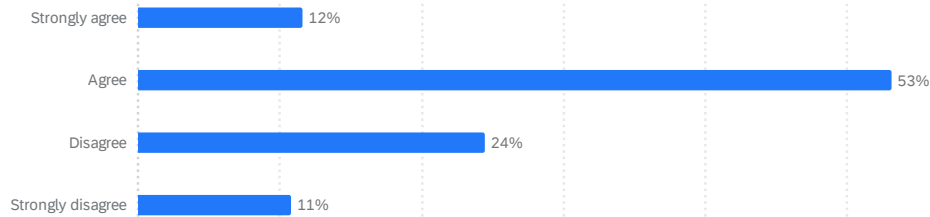

During the school day, what causes the most disruptions to your learning?

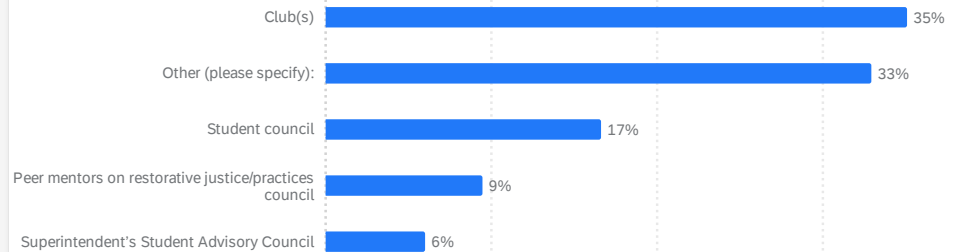

How has the school community worked to create a healthy and safe learning environment for students? (Select all that apply.)

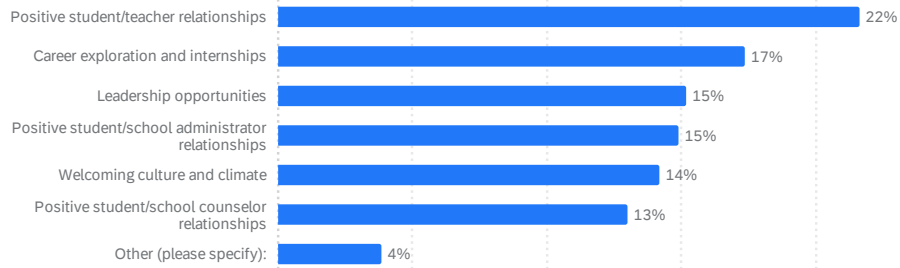

To what extent do you agree? Student engagement and involvement in leadership at my school has made a positive impact on the school community.

Are you involved in any student leadership activities/clubs at your school?

Select the three things that would help you enjoy school more.

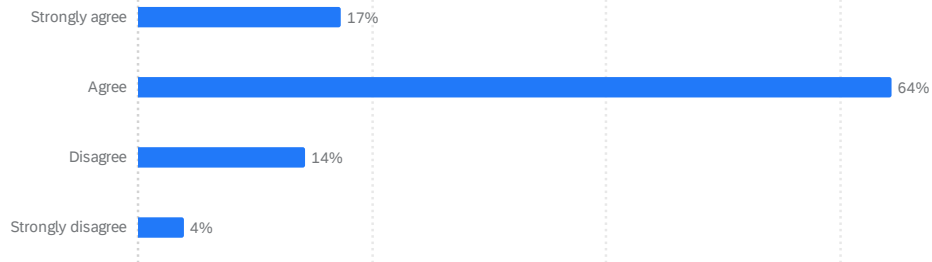

Are you involved in any student leadership activities/clubs at your school?

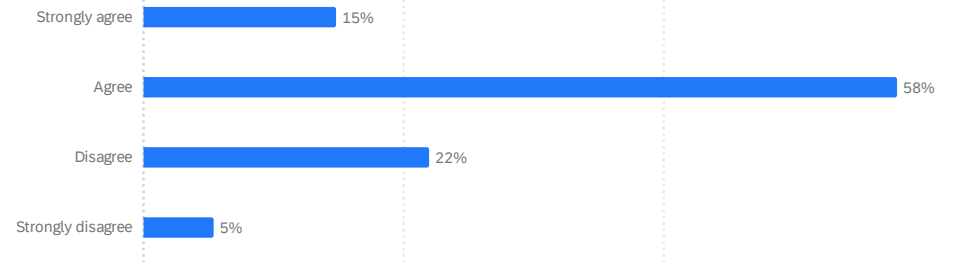

These open responses are being analyzed for language and personally identifiable information.

To what extent do you agree or disagree with the following statements?

Most of my teachers are experts in their content area.

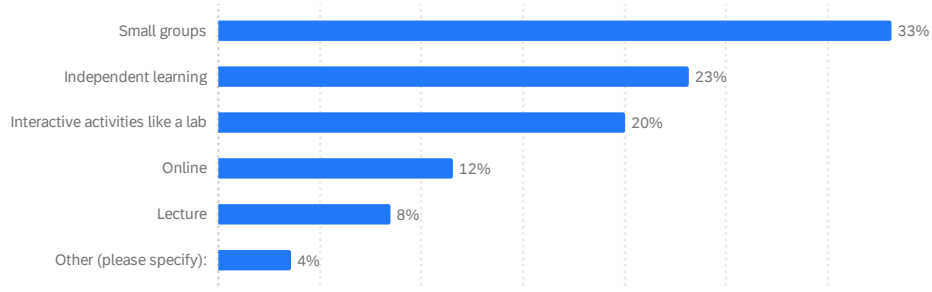

Most of my teachers actively engage all students in learning on a daily basis.

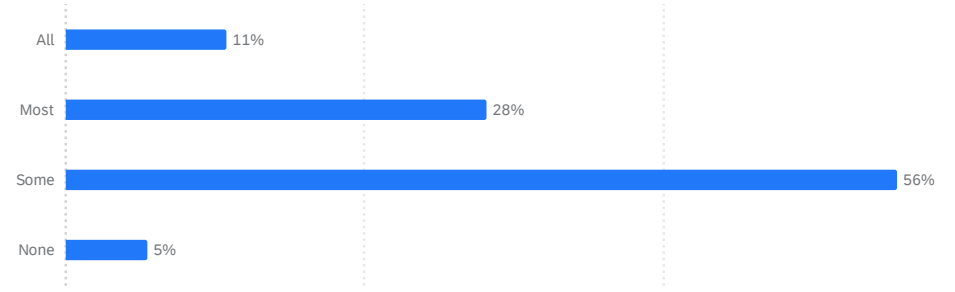

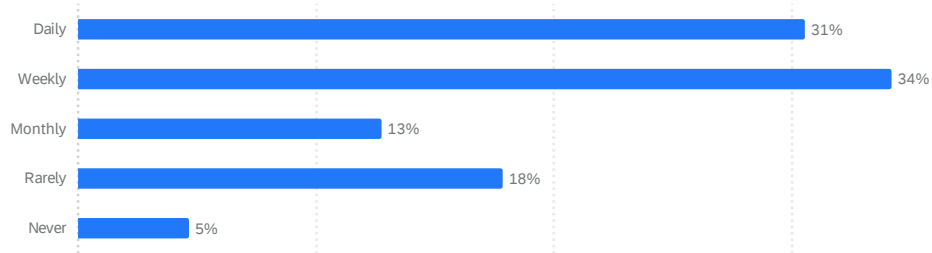

### What is the best way that you learn?

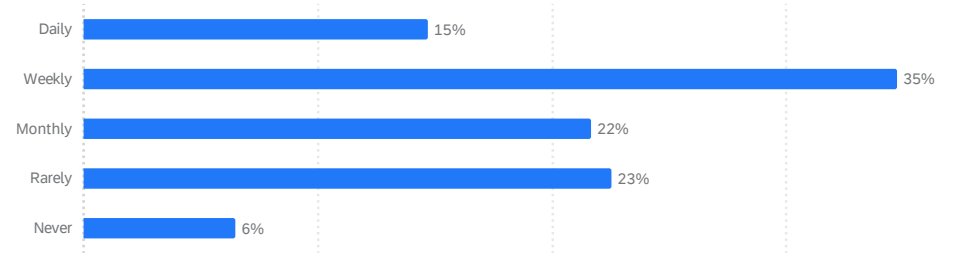

### How many of your teachers teach in ways that are engaging and help you learn?

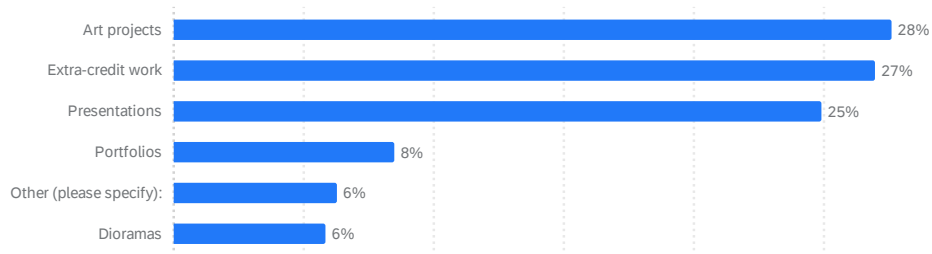

### How often do you have opportunities to contribute to the learning (versus taking notes or digesting information provided by the teacher)?

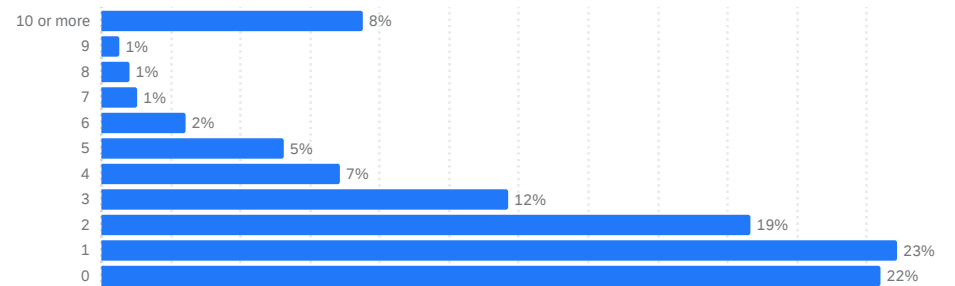

### How often do you have opportunities to demonstrate your understanding in a way that's different from a test or quiz?

### What are the ways that you demonstrate your understanding that are different from a test or quiz? (Select all that apply.)

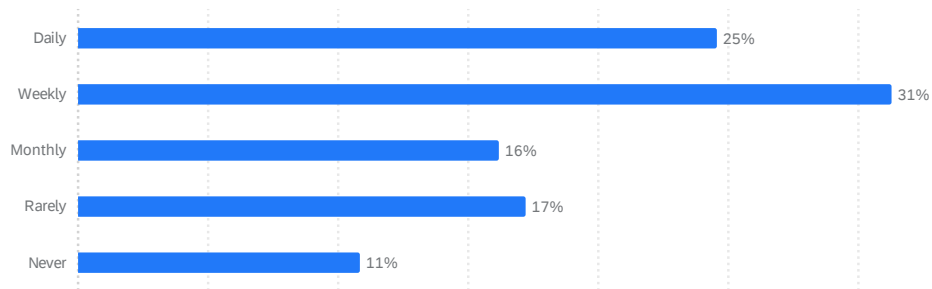

### How many books do you read each month?

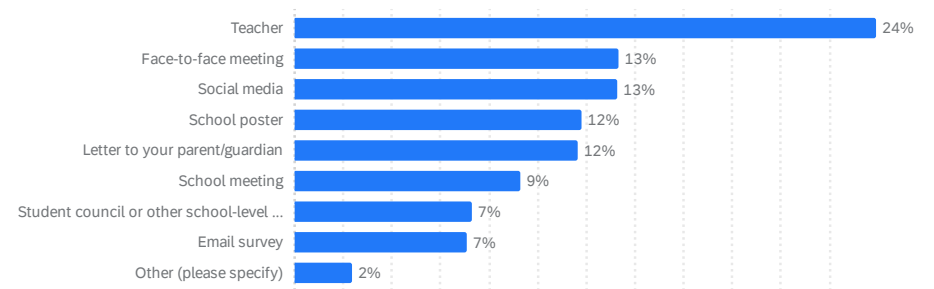

To what extent do you agree? My teachers are responsive to my concerns and/or my parents' concerns.

How frequently do you use Infinite Campus to monitor your academic progress?

What is the best way that you receive information?

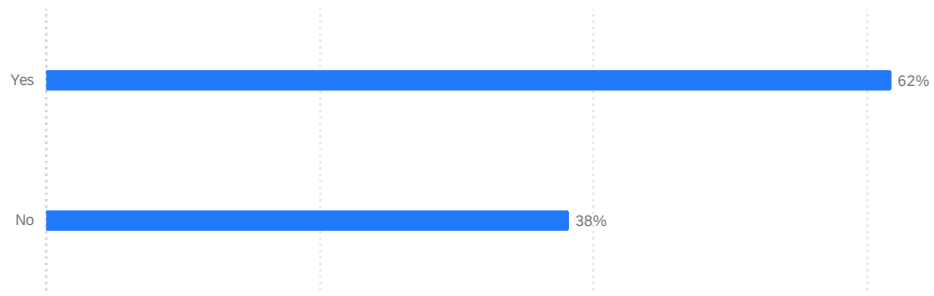

## Calendar

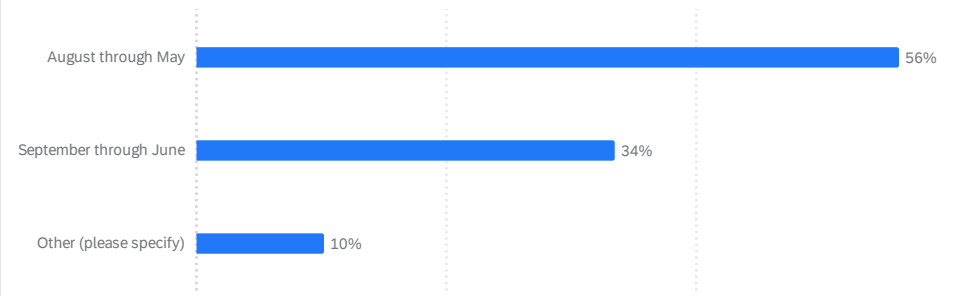

What calendar are you currently a part of?

Would you support changing all schools to one calendar?

Which calendar would you prefer?

Is there anything that we did not ask but should have asked?

These open responses are being analyzed for language and personally identifiable information.
