# AGENDA

## Agenda 2023–2024 School Year

New Business	Are there any new projects that member schools would like to address for presentation consideration?	5:50 PM
Open Discussion	<p><b>Stimulus Question:</b> modified from a blog article authored by Steven Lafemina – <i>“The Power of Student Voice in Education Innovation.”</i></p> <p><i>“Student voice deserves a seat at the table to design ideas that will transform their education. As adults, we can’t recreate their thinking—and why would we? Their insights add an invaluable perspective that we can’t replicate. Students need to be included, not only at the beginning of the process but throughout. Their contributions go beyond having great ideas, too. Involving students in the ongoing design and decision-making systems puts pressure on school systems to think differently and invest in ideas that matter to their communities.”</i></p> <p>Think thoughtfully about the following questions – ask your school peers for input:</p> <ul style="list-style-type: none"> <li>• What experiences do you think would get students excited about high school?</li> <li>• What suggestions would you offer your school and district leaders about how to work with you?</li> </ul>	6:00 PM
